

OUR VALUES

Speak without fear – Don't be afraid to make mistakes. Speaking with errors is very natural in the learning process. The basis of learning is communication. Classes are prepared to talk with confidence. Learn from your mistakes! Practice makes perfect. The more you speak, the fewer mistakes you will make.

100% immersion. Communicate with us in the language you are learning, use the time you spend in our center and practice not only during the classes. Do not forget to practice at home. Listen to the radio, watch movies in a foreign language, read!

English from the door. Our staff also learn languages. They speak English and / or Spanish so that from the very beginning you would be able to talk with practical conversations during a telephone conversation, scheduling classes, greeting and during small talks. Feel abroad without leaving the country.

Every day In our center, apart from GVP classes, we also run conversational clubs (SPEAKING CLUBS). We also offer help every day. You can always find help with us if you have questions.

Do not translate! Visualize! When learning a foreign language, translation is not necessary, but visualization. In this way, you can learn faster and more effectively.

Have FUN - Enjoy in what you do. Learn for yourself and achieve the best results.

G + V + P = confidence in speaking - If we want our students to speak with confidence, we must give them the basics. Grammar, Vocabulary and Pronunciation are necessary tools. In each class we care for these three aspects, which give the student a solid foundation, clear goals and visible progress.
